Designated Sponsor

For shares with insufficient liquidity, support by at least one Designated Sponsor is a prerequisite for continuous trading on Xetra®. Currently, 21 Designated Sponsors are active in 655 equities of DAX, MDAX, SDAX, in other equities of the Regulated Market and the Scale Segment/Basic Board, as well as the Open Market. In order to enhance the transparency and compare the performance of these liquidity providers, Deutsche Börse creates a rating - a kind of quality mark. For Designated Sponsors, this rating is both an incentive and an advertisement. For further information, please refer to the Designated Sponsor Guide.

Rating Classes

The rating is measured based on the below named rating and is determined in the form of a combination of letters from 'A' to 'D' (Top-Rating 'AA'). The following table shows the rating measure and the division into rating classes.

Average quotation time in relation to the effective trading time*	Rating class	Average spread in relation to maximum Spread**	Rating class
Quotation time \geq 90%	A	Spread \leq 75%	A
$75\% \leq$ Quotation time $<$ 90%	B	$75\% <$ Spread \leq 80%	B
		$80\% <$ Spread \leq 85%	C
		Spread $>$ 85%	D

* An average quotation time of \geq 90% means that on average there has been a quotation of the respective shares of at least 90% of continuous trading.

** A spread of \leq 75% means that on average the maximum spread of the respective share was tightened by at least 25%.
