Rating Classes

The rating is measured based on the below named rating and is determined in the form of a combination of letters from 'A' to 'D' (Top-Rating 'AA'). The following table shows the rating measure and the division into rating classes.

Average quotation time in relation to the effective trading time*	Rating class	Average spread in relation to maximum Spread**	Rating class
Quotation time \geq 90%	A	Spread \leq 75%	A
$75\% \leq$ Quotation time $<$ 90%	B	$75\% <$ Spread \leq 80%	B
		$80\% <$ Spread \leq 85%	C
		Spread $>$ 85%	D

* An average quotation time of \geq 90% means that on average there has been a quotation of the respective shares of at least 90% of continuous trading.

** A spread of \leq 75% means that on average the maximum spread of the respective share was tightened by at least 25%.
