## EU-regulated market: Prime Standard Tailor-made solution for equity financing

There are various ways which lead to the Frankfurter Wertpapierbörse (FWB®, the Frankfurt Stock Exchange): via initial public offering (IPO), listing (without capital increase), SPAC, Direct Listing and dual listing. Companies seeking a listing in the EU-regulated market may choose between Prime Standard for shares and General Standard for shares. Issuers in the Regulated Market meet high standards that apply throughout the EU. The Regulated Market is thus intended for large and medium-sized companies who are able to meet these standards and wish to attract national and international investors.

In addition to the statutory minimum requirements of the EU-regulated market, companies in Prime Standard must comply with the highest transparency requirements, and supply all documentation in both German and English. Further follow-up obligations arising from admission, amongst others, are the submission of the quarterly statement and annual analysts' conference.
